The undersigned, representing their own institutions, hereby express their interest in establishing a Cooperative Education Agreement which enables the fulfillment of academic practicum among institutions, providing an opportunity for students of both institutions, through Student Exchange programs, to apply and complement the acquired knowledge during their academic training in undergraduate and graduate study programs.

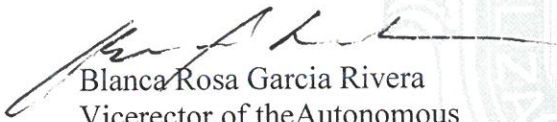

Likewise, competence acquisition would be targeted in order for students to be prepared for performing professional activities, to facilitate their employability, as well as to promote their entrepreneurship capacity.

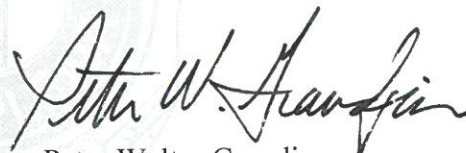

Finally, professors and researchers exchange will be encouraged among institutions in order to stimulate the generation and application of new knowledge and technologies, through the collaboration in Research Projects and the creation of cooperative academic production.

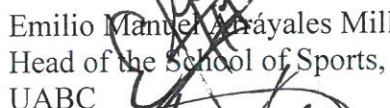

This letter would enable both representatives to consider the possibility of signing a Cooperative Education Agreement among the afore mentioned universities.

For such purpose, both education institutions express their agreement. Therefore, this document is signed in the city of Ensenada, Baja California, México on November 11, 2016.
